

### EUROCEL 907 AC

#### Short description:

Metallized BOPP single sided tape

#### Product Data

|                            |                               |
|----------------------------|-------------------------------|
| <b>Backing:</b>            | 0.028 mm metallized BOPP film |
| <b>Adhesive:</b>           | acrylic water based           |
| <b>Total thickness</b>     | 0.048 mm                      |
| <b>Adhesion to steel</b>   | 7,5 N/25mm                    |
| <b>Tensile strength MD</b> | 100 N/25mm                    |
| <b>Elongation at break</b> | 140 %                         |
| <b>Temp. Resistance</b>    | 80 °C                         |

#### Application

This product is suitable for joining aluminium insulation panels and for conditioning plants

| Features             | Benefits                                                                                                                                                          |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acrylic adhesive     | <ul style="list-style-type: none"><li>➤ Good adhesion in most applications</li><li>➤ Good resistance to ageing</li><li>➤ Good resistance to temperature</li></ul> |
| Metallized Bopp film | <ul style="list-style-type: none"><li>➤ Excellent moisture and vapour barrier ( &lt; 1g/mq/24 hours )</li><li>➤ Resistant in most situations</li></ul>            |

*Product shelf life and storage: 12 months, based on the product being stored at 23°C/50% relative humidity out of direct sunlight.*
